The first organization of microcomputer users in Colorado Springs was the Pikes Peak Computer Application Society (P*PCompAS). This generic support group was organized for those interested in using personal computers in business and in the home. The goal of P*PCompAS is to educate the public and ourselves. Membership is open to owners and prospective owners of any make or model of IBM compatible personal computers. Member benefits include monthly meetings with other members, technical assistance from more experienced members, social get-togethers, software raffles, guest speakers, panel discussions, monthly newsletter, dedicated web site and WebBoard and user-helping-user demonstrations.

Monthly meetings, which are open to the public, are held on the first Saturday of the month from 9:00 a.m. until noon at the Springs Community Church, corner of Lexington Drive and Woodmen Road. We also have an informal breakfast get-together on the third Saturday of each month beginning at 8:00 am at a location to be determined after the pandemic.

You are welcome and cordially invited to attend our meetings and join P*PCompAS. Dues are $12.00 a year for individual membership and $18 for a family membership, but check on special pricing through 2021. Membership dues are prorated by yearly quarter for new members and include receiving the monthly newsletter by E-mail. Make checks payable to P*PCompAS and send to the address shown below. Further information is available on the P*PCompAS web site at http://ppcompas.apcug.org/ or call Ann, the Membership Chair, at 719-598-3531 (e-mail: asdtitus@gmail.com). We hope to see you at one of our forthcoming meetings.
